/Andrew D Kosar/ Primary Examiner, Art Unit 1654

13. Other: _____.

Applicants state that there is no motivation for using a B. stearothermophilus tRNA . However the Office action clearly states that tRNA from B. stearothermophilus contains a B and an A box in its sequence. These sequences are needed for expression in eukaryotic cells. The A and B box sequences are not found in E. coli tRNA. Thus the motivation of using iRNA from bacillus is obvious.
